Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compound-ed, brings back the natural color and lustre to the hair when faded, streaked lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bettle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

OUCH! LAME BACK. RUB LUMBAGO OR BACKACHE AWAY

Rub pain right out with small trial bottle of old "St. Jacobs Oil."

Kidneys cause Bachache? No: They have no nerves, therefore can not cause pain. Listen: Your backache is caused by lumbago, schilda or a strain, and the quickest relief is soothing, penetrating "St.Jacobs Oi." Rub it right on your painful back, and instantly the soreness, stiffness and imper up. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

Rub old, honest "St. Jacobs Oil" whenever you have sciatica, neuralgia, rheumatism or sprains. It is absolutely harmless and do an't burn the skin.—Adv.

of late, continued to-day. At one point
December wheat sold down to \$1.664,
a bushel and March wheat to \$1.574,
Observers contrasted those prices with
\$2.75 a bushel for December and \$2.67
for March, which prevailed when trading in futures was resumed after the
war recess on July 15.

The declines of about \$1.10 to nearly
\$1.19 a bushel in a little more than four
months have been ascribed to various
causes. One authority traced to-day a
connection between the market break
and the "strike" of farmers who withheld wheat from the market in an attempt to force higher prices.

It was said that that "strike" was followed by an unexpected retailatory
"strike" on the part of wheat consumers,
the bottom dropping out of the cash
grain market and carrying the futures
figures with it.

Anothes explanation of the big breaks
in corn and wheat had it that the few
factors in existence which might be expected dto raise prices had become lost
in the weakness of the trading situation
generally, not only in grains but also in
commodities and manufactured goods.
